

YOUR MOBILE RESIDENCE AT CAMPING SAINT JEAN THE QUALITY CHOICE

RESISTANCE AND DURABILITY OF THE CHASSIS

The mobile home is constructed on a **120-140mm galvanised UPN chassis**, with unsurpassed resistance to corrosion, giving it incomparable stability.

MOUNTAIN INSULATION

This option brings you increased comfort and allows you to enjoy your mobile home in all seasons

Ceiling – triple-thickness sandwich composed of two CTBH (French Technical Wood Centre quality label) water-repellent panels, 40mm Styrofoam insulation and “alubulle” film

Walls – with high-density insulation using expanded polystyrene
Exterior self-coloured PVC cladding

Roof – hot galvanized cover, vapour film, reinforced trusses, 200mm glass wool

DOOR AND WINDOW FRAMES

They are in building-grade PVC, double-glazed, with safety glass

Windows – pivoting in the lounge, toilets and bathroom

FURNISHINGS

Kitchen – integral, with traditionally-made cupboards

Bedding – high quality

THE TERRACE

In autoclaved wood, area approximately 18 sq metres with balustrade and steps
A real living area...

THE STORAGE SHED

In autoclaved wood. Very useful for storing bikes or the garden furniture out of season.
